

How Does the City Develop its Budget?

Every fall, the City begins preparations for updating its annual budget. The City's annual budget is a financial plan for creating and maintaining programs and services for our citizens. The planning process follows an annual cycle involving specific activities of Council, City Administration, and the public.

Key Budget Cycle Activities

July–September

City departments prepare and update their budgets for the upcoming five years (e.g. 2020–2024).

November - Public Budget Meeting

The public has the opportunity to provide feedback on the provisional budget and to share ideas and opportunities for consideration in future budget cycles.

March–April

Final tax rate is set.

September–October

City managers and the Financial Planning team review budget submissions and examine the overall impact to the budget.

November–December

Council reviews and discusses the provisional budget.

February - Public Budget Meeting

The public has the opportunity to provide feedback on what has been updated or deleted in the provisional budget as well as share ideas and comments on the supplemental requests.

Public Budget Meeting dates will be announced in the fall.
