

Victoria Street West Improvements Project

Traffic Pattern Changes (Effective May 2, 2019)

1st Avenue and Lansdowne Street

Motorists will now be allowed to turn right from Lansdowne Street at 1st Avenue. Between 7:00 am and 6:00 pm, this movement will be controlled by a flagger.

Transit & EMS
Priority Lane

2nd Avenue and Lansdowne Street

The temporary traffic control devices and flagger on Lansdowne Street will be relocated to west of the intersection. Motorists are encouraged to use all available lanes on Lansdowne Street and to zipper merge near 1st Avenue where both lanes converge to one. Motorists will now be allowed to turn right from Lansdowne Street at 2nd Avenue.

Stage 1 April–August 2019

1st Avenue and Seymour Street

The north crosswalk of the intersection will be closed to pedestrians. The southbound right-turn lane on 1st Avenue at Seymour Street will be realigned to permit right turns only from the dedicated right turn lane. Right-turning motorists are reminded to yield to pedestrians using the west crosswalk.

Active Construction Zone

Please obey all signage and traffic control personnel.
